

EXPLORE NATURE NEAR YOU!

Thank you for downloading these resources for exploring Andrew Haydon Park! We encourage you and your family to explore the park at your own pace while keeping a safe physical distance from others who may be at the park.

The Ottawa-Carleton Wildlife Centre (OCWC) has been working on behalf of wildlife for over 30 years. We are committed to educating people about wildlife and helping to foster an appreciation for the natural world and the important role all species play in a healthy ecosystem. We host education workshops, help address human/wildlife conflicts, launch pilot projects to provide assistance for the public to coexist with wildlife, and plant trees to help restore natural areas.

While on your adventures in the park, make sure you capture your best nature moment and email it to me (ocwcinfo1@gmail.com) to enter for a chance to win binoculars and a field guide! Please include your full name, phone number, and photos/videos of your time at Andrew Haydon Park.

Happy exploring!

MONICA SEIDEL

OCWC Outreach Program Coordinator

Nature Bingo

SEE A BUMBLEBEE IN A FLOWER	SPOT A GREEN LEAF	FISH SWIMMING IN THE WATER	TAKE 3 DEEP BREATHS. WHAT DO YOU SMELL?	FIND A CANADA GOOSE FAMILY

LEAF RUBBING

Find fallen leaves and place them under this paper. Using a pencil, pencil crayon, or crayon, gently colour over the leaf. Try leaves from different trees, and create a leafy masterpiece on this paper!

MY TIME IN THE PARK

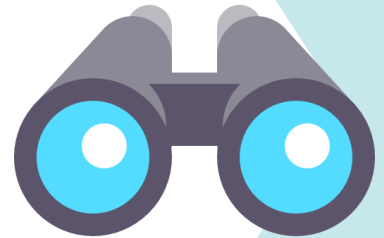

My name is:

Date:

Why do I think insects like bees and butterflies are important?

What was the smallest thing I saw in the park? The biggest? Where did I see them in the park?

What was my favourite memory from going to the park with my family today?

How can I explore nature around my home or in my yard?
