

Scavenger Hunt

Follow the clues to discover some of nature's secrets

How old are the trees in Andrew Haydon Park? Go across the red bridge to count the rings and discover the answer.

Arrrrr matey, find your ship and move on to the next clue.

I spy a tree that appears to be growing sideways. Can you think of why the branches aren't pointing upwards?

Did you pass a bird's nest on your way to answer the 2nd riddle? Try looking very high in the sky.

Peck, peck, peck. Can you find a woodpecker's favourite tree?

Can you identify a Red-Wing Black Bird's favourite perch? Hint: they often live in wetlands.

Find an object that harnesses wind power.

Flowers can grow in the most unlikely of places. Walk along the river and see if you can spot bindweed (pink and white flowers).

Can you find the waterfall? Hint: follow your nose to the cedar forest.
